Mannsville Free Library
Wireless Internet Access Policy

The Mannsville Free Library offers free wireless Internet access to library users with wireless-enabled devices. The provisions set forth in the library's Computer Use and Internet Safety Policy are applicable to wireless network access.

Our network supports a wide range of laptop computers. Most wireless network cards will be compatible. However, the library can make no guarantees as to compatibility of a library user's device with the library's network. If a device doesn't recognize our wireless network, the library user should review the configuration settings provided at the circulation desk. Library staff does not provide wireless access support and will not install or modify hardware or software.

Communication through the wireless network should not be considered secure. Library users are responsible for selecting and installing security protection and current virus definitions on their wireless devices. The Library is not responsible for damage to hardware or software, transmission of computer viruses, loss of data or email, or any harm resulting from the use of an unsecured server. It is strongly advised that personal, financial or otherwise sensitive information not be transmitted through the wireless network.

Printing from the wireless network is not currently available. Files can be saved to a device or e-mailed.

The wireless network can accommodate interactive searches on the web. Library users will be asked to terminate any activity that adversely impacts the network's performance.

When using wireless-enabled devices to listen to music, dialog, sound effects, etc., library users must use earphones to make the sound inaudible to others. If sound is heard despite the earphones, the library user must lower the sound level or turn the equipment off.

Adoption
This Wireless Internet Access Policy was adopted by the Board of at a public meeting, following normal public notice, on March 10 2020.
